

MOUNT GLENWOOD CEMETERY PROSPERS

Stockholders and Lot Owners Give Association Substantial Support—Plans for Comfort and Beautification to Be Completed.

Despite the great cry of the high cost of living and of general business depression the Mount Glenwood Cemetery Association proves to be a notable exception. At the general offices, 3125 State street, there is an air of prosperity. Miss Scobie, the manager, was pleased at the outlook and declared that the association was never in a better financial condition. She bestowed great praise upon the stockholders who had given the association such good support during the past year and the lot holders for their interest and prompt payments. With the opening of spring the original plans for the beautification and comfort of the grounds will be carried out. The lodges and other associations have given us their assistance, and we have very few delinquents. In a word, the association is in a flourishing condition, and when improvements at the grounds are completed it will rank with the best cemeteries in Chicago.
